SEATING

CONNECTING PEOPLE THROUGH SEATING

Ferco Seating the global market leader in public seating, places a high priority on product quality and ensures that our seating solutions meet all relevant legal and safety requirements.

To ensure our products are safe for sale worldwide, we partner with accredited testing houses to conduct thorough product testing. Our seating solutions **comply with safety legislation** in Europe, the Far East, the Middle East, the US, and Australia.

Ferco Seating is proud to hold ISO 9001:2015 accreditation and is committed to delivering exceptional seating solutions around the world. We adhere to international standards for materials, products, systems, and services provided in every location, including:

- **UK's British Standards**
- **US's ASTM International**
- **Europe's European Standards**

Our products undergo rigorous assessments to ensure that they meet key criteria for:

- **Safety**
- **Stability**
- **Strength**
- **Durability**
- **Flammability**

Ferco pays close attention to potential hazards, such as sharp edges and entrapment points in folding mechanisms and assure our seats can withstand normal use loads and foreseeable misuse. By doing so, the seating solutions not only meet but exceed the international standards.

ESG

DESIGNING FOR THE FUTURE

Ferco is deeply committed to environmental sustainability and providing superior workspaces. All products are manufactured in safe and eco-friendly working environments. We consistently explore innovative solutions to enhance:

- **Quality**
- **Environmental**
- **Safety management systems**

We have obtained certification of **Forest Stewardship Council (FSC), ISO 14001:2015** and achieved **BIFMA e3 standard.**

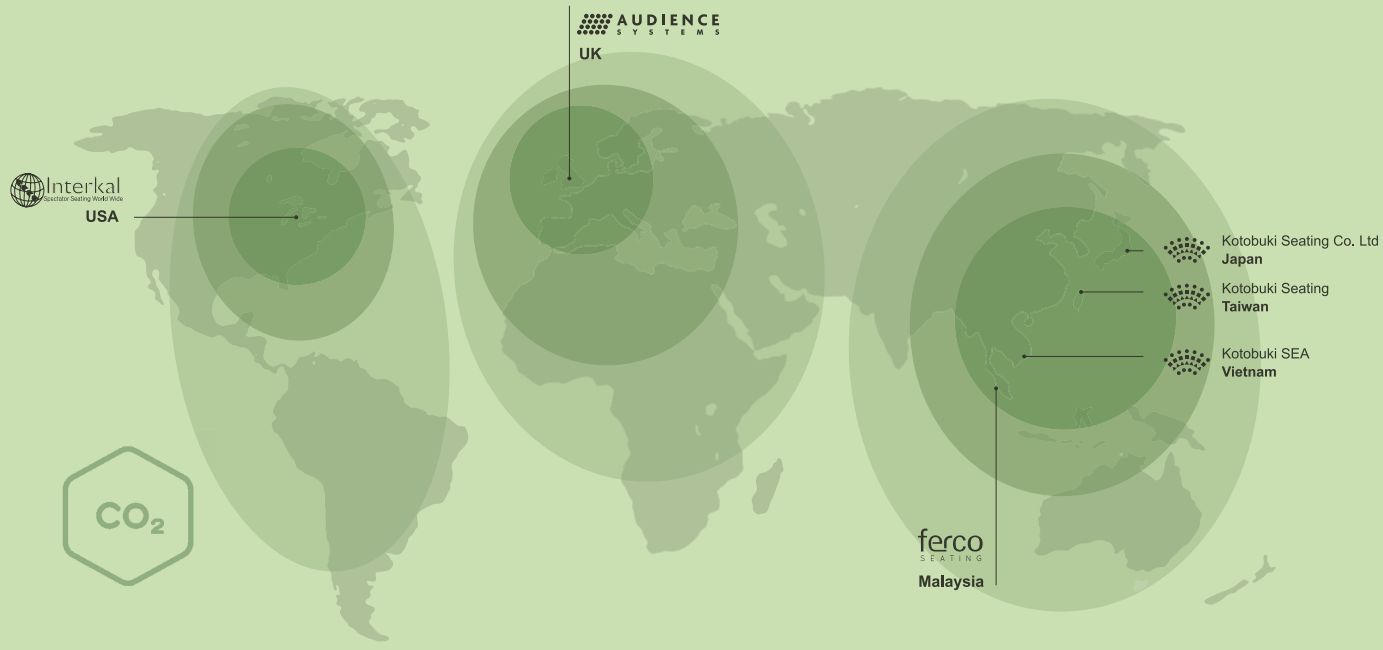

Our production and environmental management processes incorporate cutting-edge materials and construction technologies to help minimizing the environmental impact.

Our rigorous **quality assurance measures,** from order placement to shipment, are meticulously documented. We strive to reduce our carbon footprint to the greatest extent possible.

In our **product lifecycle management**, the product development involves ensuring that all seating products are designed to be:

- **Durable**
- **Upgradable**
- **Recyclable**

Thereby reducing the amount of waste generated at the end of the product lifecycle.

PROJECTS ACROSS THE WORLD

Ferco's cinema seating projects vary **greatly in design and purpose,** each project is attentively researched, developed, designed and installed. Some of the projects prioritize sustainability and environmental impact, choosing to use recycled or eco-friendly materials. While others focus on innovation and functionality, using new materials or unique designs to create eye-catching and memorable seating experiences.

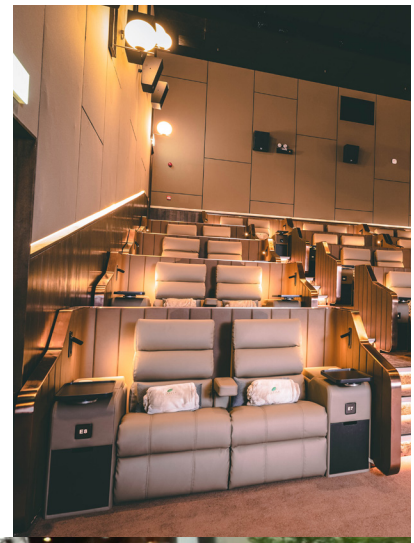

Ferco seating solutions **strive to promote social interaction and community building,** by using seating arrangements to encourage conversation and connection between people. Ferco also look into accessibility and ensuring that our seating is inclusive toward people with disabilities.

Ferco continuously work with cinema operators and owners to improve overall cinematic experience along with helping them to maximise their revenue through F & B sales, return customers and more.
